OBJECTIVE

Short-term: As a fresher PHP developer, my goal is to secure a position as a Junior PHP Developer where I can apply my coding skills and learn from experienced professionals. I aim to contribute effectively to ongoing projects and gain hands-on experience to build a solid foundation for my career.

Long-term: In the long run, I aspire to advance to a mid-level or senior PHP Developer role, where I can lead projects, drive innovative solutions, and mentor junior developers. My objective is to continuously enhance my technical skills, stay updated with industry trends, and contribute to impactful software development initiatives.
